

Report of Publicity Officer – 2020/2021 season

The restrictions of 2020 changed my role considerably and I moved towards more of an online presence. Several members participated in the Thursday 'Clap for the NHS' with recordings of 'Over the Rainbow', which I posted on our Facebook page, together with alternative musical contributions from other members.

The committee agreed that I should start producing a newsletter as a means of updating Patrons, Friends, players and past members. This would also appear on our website and Facebook. To date I have produced seven newsletters and I think this is the way forward in order to reach a wider audience, encouraging recipients to pass these on to other contacts too.

I am currently preparing publicity material for our first concert back to near normal on October 2nd.
